Working together, we improve people’s lives.

Our goal is to improve the health of people across Vermont and Northern New York by integrating patient care, education and research in a caring environment.

Our locally led, non-profit Network is working to preserve access to care that our patients and families need by focusing on wellness, in addition to disease prevention and treatment, while controlling costs.

OUR INTEGRATED HEALTH SYSTEM

• Academic Medical Center, an alliance of UVM Medical Center, the Robert Larner MD College of Medicine at the University of Vermont and the UVM College of Nursing and Health Sciences.

• 5 Community Hospital Affiliates

• Network Medical Group

• Home Health & Hospice

• Federally Qualified Health Center Partner

NETWORK BY THE NUMBERS

1M  Serves more than 1 million lives

1,500+  Providers, including 1075 physicians and 450 advanced practice providers representing primary care and 30 specialties

15,000+  Employs more than 15,000 people in our region

1,200  1,200 Licensed inpatient beds

2.4M  Patient care encounters at our hospitals, clinics and home visits, including 145,431 ER visits
Health Care Comes Home.

HOME HEALTH & HOSPICE KEY INITIATIVES

• **Integration with Primary Care:** Our re-hospitalization rates are lower than the national average, but closer integration with Primary Care will further ease patients’ transition from hospital to home. Through education, clinical assessment and advancing administration of flu, pneumonia and COVID-19 vaccines, we will help prevent readmissions to acute care settings.

• **Expansion of Longitudinal Care Program:** This small Home Health & Hospice program, which provides nurse oversight and supportive health coaching for 47 patients, resulted in a 57% reduction in hospitalizations and a 56% reduction in Emergency Department visits over 16 months. Consequently, OneCare Vermont will support statewide expansion in 2021 (after a disrupted attempt due to COVID-19 in 2020).

• **Hospice and Palliative Care Delivery and Growth:** In close collaboration with the UVMMC Palliative Care Team, we helped local nursing homes manage COVID-19 outbreaks in the spring and fall of 2020. Home Health & Hospice’s hospice patient volume has grown 20 percent during the past year, and next year we will work to improve access to hospice services at home, in nursing homes and at our residential care facility, McClure Miller Respite House.

HOME HEALTH & HOSPICE BY THE NUMBERS

| **Employees** | **458** |
| **Patients served, at all ages and stages of life** | **4,556** |
| **Hours of care provided** | **201,964** |
| **Home visits by caregiving team members** | **118,984** |
| **Days of care provided at the McClure Miller Respite House** | **5,862** |
